

YOU ARE GETTING MARRIED

I am honored that you are considering me to be your wedding photographer!

What does personalized wedding packaging entail?

Instead of giving you the limited option of only a few different wedding packages to choose from, I want to give you the option to design the custom package that fits the exact needs for your wedding day.

This allows you to choose what specific “add ons” you need and stay within your desired budget.

We will have 3 meetings between your booking date and your wedding, assuring that the process is smooth and stress free.

PRICING BREAKDOWN
